

TECHNICAL DATA SHEET

Safoam® FP-20

Chemical Foaming and Nucleating Agent

DESCRIPTION

Chemical Foaming Agent to create cellular structure in thermoplastics.

Decomposition Temperature:	175°C (347°F)
Processing Temperature:	120°C-220°C (248°F-428°F)
General Dosing Recommendations:	0.5% -2.0%
Appearance:	Off-white pellet
Odor:	Faint odor

PACKAGING

50# Boxes-Pellet - Dimension: 45" x 48" x 64"/2.27 cm
 Net Weight: 1,350 lbs./612.35 kg.
 Gross Weight: 1,505 lbs./682.66 kg.

All active ingredients are Generally Recognized As Safe (GRAS) by the FDA.
SAFOAM® is manufactured in accordance with applicable FDA Good Manufacturing Practices (GMPs) 21 C.F.R. Part 110.
